## I Foundation & Formation

Days 1–30 · Build the bones

0%

### ⚖ LEGAL & BUSINESS FORMATION

- [ ] **Choose your business structure (LLC recommended)** — High
  LLC gives liability protection + credibility. File in your home state. Cost: ~$50–300 depending on state.
- [ ] **File your LLC / business registration** — High
  Use your state's Secretary of State website. Consider a registered agent service (~$50/yr).
- [ ] **Obtain an EIN (Employer Identification Number)** — High
  Free via IRS.gov. Needed for banking, taxes, and any vendor relationships.
- [ ] **Open a dedicated business checking account** — High
  Keep business + personal finances completely separate from Day 1. Relay, Mercury, or local credit union are good options.
- [ ] **Open a business savings / reserve account**
  Target 3 months of projected operating costs as a cushion before you launch.
- [ ] **Register your business name / DBA if different from LLC name**
  "Yoli's Joy" may need a DBA (Doing Business As) filing if your LLC has a different legal name.
- [ ] **Check for required local business licenses or permits**

Most municipalities require a general business license even for service businesses. Check city/county requirements.

## $ FINANCE & PRICING

- [ ] **Set up simple bookkeeping (Wave free, or QuickBooks Simple Start)** High
  Track income and expenses from the very first transaction. Don't wait until tax season.
- [ ] **Finalize your 3 service tiers and pricing (Spark / Glow / Radiate)** High
  Document what's included, your curation fee, and product budget ranges for each tier.
- [ ] **Create a startup budget / 6-month expense forecast**
  Include: web hosting, domain, packaging materials, software tools, marketing spend, legal fees.
- [ ] **Set up a payment processor (Stripe or Square)**
  Stripe is developer-friendly for future website integration. Square is easier for beginners.
- [ ] **Create a simple invoice template**
  Even before your website is live, you need to be able to invoice your first client professionally.

## ✦ BRAND IDENTITY

- [ ] **Lock in brand name: "Yoli's Joy" — confirm domain + social handle availability** High
  Check: yolisjoy.com, @yolisjoy on Instagram, @yolisjoy on TikTok, Facebook, Pinterest.
- [ ] **Purchase your domain (yolisjoy.com or variant)** High
  Namecheap or Google Domains. Grab .com first, then .co as backup.
- [ ] **Define brand voice & personality (3–5 adjectives)**
  E.g.: Warm, intentional, personal, joyful, elevated. Use these to guide all future copy decisions.
- [ ] **Commission or create initial logo + color palette**
  Consider Canva Pro for DIY or hire a designer on 99designs / Fiverr for a polished result. Budget: $0–500.
- [ ] **Write your brand story / founder's note**
  Why did Yolanda start this? What moment inspired it? This becomes your "About" page and Instagram bio anchor.
- [ ] **Create your brand kit document (fonts, colors, logo variants, usage rules)**
  A simple Canva Brand Kit or Notion doc works. Consistency from Day 1 matters.

### ⬡ TECH SETUP (PHASE 1)

- [ ] **Set up a professional email address (hello@yolisjoy.com)** High
  Google Workspace ~$6/mo. Don't use Gmail/Yahoo for business communications.
- [ ] **Choose website platform and begin Phase 1 build** High
  Options: Squarespace (easiest), Webflow (most design-flexible), Framer (beautiful + fast). Build 3–4 pages: Home, Services, About, Contact.
- [ ] **Set up a project management tool (Notion or Trello)**
  Use Notion to track clients, orders, gift ideas, vendors, and content. Free tier is enough to start.
- [ ] **Set up a simple CRM or client tracker**
  A Notion table or Airtable base tracks: client name, occasion, budget, order status, follow-up date. Free to start.
- [ ] **Create social media accounts (Instagram, Pinterest, Facebook Page)**
  Secure the handles even if you're not posting yet. Fill in bio + profile photo.

### ◎ BUSINESS VALIDATION

- [ ] **Define your ideal client avatar in detail**
  Name her. What does she care about? What occasion is she shopping for? What's her budget? What pain does she feel shopping alone?
- [ ] **Identify and research 5–8 competitors**
  Local gifting services, national concierge gifters, and adjacent players. Document: pricing, positioning, gaps you can fill.
- [ ] **Interview 5 potential clients (friends, family, colleagues) about gifting pain points** Med
  Ask: "What's the hardest part of gift-giving for you?" Their words become your copy.
- [ ] **Complete your first 1–2 pro bono or discounted gift curation orders**
  Real experience builds confidence. Get feedback, take photos, collect a testimonial.

2

# Launch & Grow

Days 31–60 · Get visible and get clients

0%

## ○ WEBSITE & TECH LAUNCH

- [ ] **Launch Phase 1 website (go live!)** High
  Home, Services, About, Contact with your intake form. Done is better than perfect.
- [ ] **Add Google Analytics + Google Search Console**
  Free. You want to know who's visiting from Day 1. Critical for future SEO tracking.
- [ ] **Build and publish a client intake form** High
  Collect: recipient name, occasion, relationship, interests, budget, any allergies/restrictions. Use Typeform or your website's form builder.
- [ ] **Set up an email marketing tool (Mailchimp or Flodesk)**
  Flodesk has gorgeous templates that match a boutique brand aesthetic. ~$38/mo. Start building your list from Day 1.
- [ ] **Create a lead magnet / freebie to grow email list**
  Ideas: "The 5-Question Gifting Guide," "How to Gift Someone Who Has Everything," or a printable occasion checklist.
- [ ] **Set up a scheduling tool (Calendly) for discovery calls**
  Link to your website. A 15-min free call is a great conversion tool for Glow + Radiate tiers.

## ◈ MARKETING & CONTENT

- [ ] **Create your content strategy for Instagram + Pinterest** High
  Plan 3–4 post types: gift reveals, behind-the-scenes curation, client stories (anonymized), gifting tips.
- [ ] **Batch-create first 12 social media posts + schedule them**
  Use Later or Buffer. Having 3 weeks of content ready reduces overwhelm enormously.
- [ ] **Publish your first blog post ("Little Ways to Light People Up")**
  Topic idea: "5 Gifts for the Friend Going Through Something Hard." Short, warm, shareable.
- [ ] **Send a "soft launch" announcement to your personal network** High
  Email + text. Don't overthink it — just tell people what you're doing and that you'd love referrals.

- [ ] Set up Google Business Profile (Google Maps listing)
  Even as a remote service business, this helps local SEO. Free.

- [ ] Join 2–3 Facebook Groups where your ideal clients gather
  Examples: local moms groups, women in business communities, HR professional groups. Be helpful, not salesy.

- [ ] Create and test a referral program structure
  Idea: "Refer a friend and get $25 off your next order." Word-of-mouth is your #1 growth channel.

### ◇ SOURCING & OPERATIONS

- [ ] Apply for a Faire wholesale account — High
  Faire.com — wholesale marketplace with thousands of independent brands. Free net 60 terms available. Must register as a retailer.

- [ ] Identify 3–5 local artisan / small business vendors
  Candles, ceramics, handmade goods. Support local + differentiate your curation. Austin has incredible makers.

- [ ] Explore Uncommon Goods, Artifact Uprising, and Printfresh as brand-aligned vendors
  These carry products that feel elevated and personal — perfect for Glow tier and above.

- [ ] Source branded packaging materials (tissue paper, ribbon, stickers, boxes)
  Noissue.co for eco-friendly custom tissue/stickers. Even simple branded elements elevate the unboxing dramatically.

- [ ] Create a vendor database / gift sourcing library
  Track: vendor name, product type, price range, lead time, minimum order, quality rating. This becomes your secret weapon for fast curation.

- [ ] Draft your client service agreement / contract template
  Cover: scope, revisions, cancellation policy, refunds, timeline. Consult a contract template from a gifting/creative business resource or attorney.

### ◎ CLIENT ACQUISITION

- [ ] Land your first 3 paying clients (any tier) — High
  This is the goal for Day 31–60. 3 clients = proof of concept and real testimonials.

- [ ] Collect written testimonials after each completed order
  Ask immediately while the delight is fresh. A simple 3-question email works: What did you love? How did the recipient react? Would you recommend us?

- [ ] Reach out to 5 potential corporate clients (HR contacts, small business owners)
  Employee appreciation, client gifts, onboarding kits. Corporate is your highest-value channel. Start conversations now.

📝 PHASE 2 NOTES

Your thoughts, blockers, ideas for this phase...

## 3 Scale & Systemize

Days 61–90 · Build for what's next

0%

### ○ TECH ROADMAP (PHASE 2 & 3)

- [ ] Design and build the Smart Intake Questionnaire (Phase 2 tech) — High
  Multi-step form that captures: occasion, relationship, recipient personality, love languages, interests, dietary restrictions, budget. Typeform Pro or custom-built.
- [ ] Launch Joy Profiles concept — early version
  A saved profile per recipient that auto-populates future orders. Even a simple Airtable-backed system is a differentiator.
- [ ] Evaluate AI curation assistant tools / vendors
  Research: can you use Claude API or GPT-4 to suggest gift bundles based on intake form responses? Early prototype possible with no-code tools.
- [ ] Set up automated email sequences (welcome, order confirmation, follow-up)
  Mailchimp or Flodesk automation. Every client should feel hand-held even when you're not typing.
- [ ] Explore mobile app requirements / timeline for Phase 3 tech
  Document what the app would do: Joy Profiles, order tracking, gift reminders, AI suggestions. Use this as a future investor/grant document.

### ◈ MARKETING MOMENTUM

- [ ] Publish 3 blog posts (monthly cadence established)
  "Little Ways to Light People Up" — one post per month minimum. Gifting guides, occasion ideas, behind-the-brand stories.

- [ ] **Set up Pinterest SEO strategy (boards + keyword-rich pin descriptions)**
  Pinterest is a gifting search engine. Gift ideas, occasions, and aesthetics perform extremely well. Long shelf life vs. Instagram.

- [ ] **Launch your email newsletter (monthly cadence)**
  Theme: "The Joy Letter." Feature one gift story, one tip, one behind-the-scenes peek. Keep it warm and personal, not promotional.

- [ ] **Explore local press + podcast opportunities**
  Austin Business Journal, local lifestyle blogs, women entrepreneur podcasts. A feature story = credibility + inbound leads.

- [ ] **Launch a seasonal campaign (Mother's Day, end-of-year, etc.)**
  Plan campaign 6 weeks before the occasion. Build a landing page, email sequence, and social content around it.

- [ ] **Create a corporate gifting one-pager / deck**
  A beautiful PDF for Radiate-tier outreach. Include: what you do, who it's for, sample packages, pricing overview, testimonials.

## ◇ OPERATIONS & SCALABILITY

- [ ] **Document your full curation process as an SOP**
  Step-by-step: from intake form → sourcing → packaging → delivery → follow-up. If you ever hire help, this is essential.

- [ ] **Evaluate whether you need business insurance (General Liability)**
  Especially important before taking on corporate clients. NEXT Insurance offers affordable coverage for small service businesses.

- [ ] **Review pricing — are your margins healthy after 10+ orders?**
  Track actual cost of goods + time per order. Adjust curation fees if needed. Your time has real value.

- [ ] **Set revenue targets for Month 3 and Month 6**
  Concrete goals: e.g., 10 Spark orders/month, 3 Glow clients, 1 corporate client by Month 6. Make the numbers real.

- [ ] **Identify a fractional bookkeeper or accountant for quarterly reviews**
  Even 1 hour/quarter with a professional saves headaches and ensures you're tax-ready.

## ◎ VALIDATION & GROWTH

- [ ] **Complete 10 total paid orders (cumulative across all tiers)** High

10 orders = proof of model. You now have stories, photos, lessons, and confidence for what comes next.

- [ ] **Collect 5+ published testimonials and add to website**
  Written quotes, star ratings, and ideally a photo (with permission). Social proof is your #1 conversion tool.

- [ ] **Close your first Radiate (corporate) client** High
  Even one corporate client validates the high-value tier and generates meaningful revenue. Start outreach in Phase 2.

- [ ] **Write your 90-day retrospective — what worked, what didn't, what's next**
  This becomes the foundation of your Month 4–6 plan. Don't skip this. It's the CEO work.

📝 PHASE 3 NOTES

Your thoughts, blockers, ideas for this phase...

*"Joy is not found — it's curated."* ✦ *You've got this, Yolanda.*
